

Blind Pig

Emmi

The phoenix cried fat tears of pearl
While the dragon snapped up his best girl
And the Billywig forgot to twirl, when his sweetheart left him cold
 The Unicorn done lost his horn
 And the Hippogriff feels all for lorn
 Cos' their lady loves have upped and gone
Or that's what I've been told...Yes love, love has set the beasts astir
 The dangerous and the meek concur
 It's ruffled feathers, fleece and fur
 Cos' love drives all of us wild.i»;
