You're History

Shakespear's Sister

Well
you made your bed
better lie in it - get back to sleep !You should see me when you're not around
I'm a genius in this townI'm a queen bee when the coast is clearnow I know I don't need you dear.
So leave your hand like a magic man and disappear !You're history
- like a beat up car -
No good for me
- like an old film star -
You're history
- that's what you are - na
na
na
na.
You're history
- you're history -
No good for me
- no good for me -
You're history
- you're history - na
na
na
na
na.You should see me from your ivory tower
I'm the hero of the hourI'm a close friend of destiny when you're not here to bother me.
Well
you made your bed
better lie in it
get back to sleep !You're history
- like ancient Rome -
No good for me
- like the Dead Sea Scrolls -
You're history
- everybody knows - na
na
na
na.
You're history
- you're history -

My enemy
- my enemy -
You're history
- you're history - na
na
na
na
na.So get on your bike and take a hike right out of here !You're history
- you're history -
No good for me
- no good for me -
You're history
- you're history - na
na
na
na.
You're history
- like a worn-out shoe -
My enemy
- you're nothing new -
you're history
- you're history - ooh-ooh-ooh.You're history
- like a beat up car -
No good for me
- like an old film star -
You're history
- you're history - na
na
na
na.
You're history
- sing it
girl
let me hear you -
You're history
- na
na
na
na.
You're history
- hm - my enemy
- bye-bye
bye-bye -
You're history
- so long ! -
