May I Suggest

The Twang

What you asking that for
When you already know the answer
And what you going on like that for
You know that's not the answerI suggest you stop
Take time to think about what ya done
Then you'll realize when I see you
Why I blank you and carry onSo what's the all about now?
'Cause none of us know the answer
And what we gonna do about this now
Now your question is my answerMay I suggest you stop
Take time to think about what ya done
Then you'll realize when I see you
Why I blank you and carry onI had to carry on in the dark
To how I feel is where you'll staySo what you still going on for
'Cause I won't go back on my answer
And what you bringing that back up for
You always were a chancerI suggest you stop
Take time to think about what ya done
Then you'll realize when I see you
Why I blank you and carry onI had to carry on in the dark
To how I feel is where you'll stay
