

A Dream

Donna Hughes

You placed your hand in mine
And I saw you smile
We walked for a while
Until the sun disappeared behind
I love to hear you sing
The way you laugh at me
We sat in that old swing,
And you say you'll never leave
Chorus: Then I woke up, It was just a dream
You are not here, I think I'll go right back to sleep
You looked so real to me
You made me believe
That I was all you'd need
And you set my poor heart free
You told me you were mine
We left the past behind
No more lonely nights and
I was happy for a while
Chorus
