# Peace of Mind

## Trouble

Now that we've traveled
So very far
To walk the road alone
Happier days I've knownAll I want is our freedom
To live our lives without fear
We want the world to have freedom
Save the childrenNow that you've found
Another key
Open the door my friends
The beginning of the endAll I want is our freedom
To live our lives without fear
We want the world to have freedom
Save the world
