

He Took Her To A Movie

Ladytron

He met her in the fall
He took her to a movie
And when they'd done it all
 He took her to a movie
 And from the hospital
 He took her to a movie
 But so did I
And when her heart was sad
 He took her to a movie
 She's all he's ever had
 He took her to a movie
And should their love turn bad
 He took her to a movie
 But so did I
 I think she's been alone
 He took her to a movie
When they cut off the phone
 He took her to a movie
And when her cover's blown
 He took her to a movie
 But so did I
 There's nothing on TV
 He took her to a movie
But she's the one for me
 He took her to a movie
 We're at number three
 He took her to a movie
 But so did I
