

# Time to Go

Keane

Now, during a scene  
Seen it all before  
We drink, we drink a little much  
Drink a little more  
To shake off the nerves and  
To take off the edge and  
Now is there any way back home? Seen it all before and  
I know the signs  
We drink, drink a little much  
To stimulate the mind  
Now it's two hours to go  
Insult everyone that we know  
Now its such a long way home Maybe its time to go?  
Maybe its time we went?  
Youre making a spectacle  
Maybe its time we left? I dont wanna spoil your night  
I dont wanna hurt your pride  
But maybe its time to go  
Maybe its time? Now eating from your hand  
Laugh at every line  
Soon losing track of you  
Losing track of time  
Now its dead on the dancefloor  
And nobodys laughing anymore  
Have I become a tiresome bore? Maybe its time to go?  
Maybe its time we went?  
Youre making a spectacle  
Maybe its time we left? I dont wanna spoil your night  
I dont wanna hurt your pride  
But maybe its time to go?  
Maybe its time? To go where theres nowhere to hide  
From whats broken inside  
A faultline rips right open  
Under the wide wide ocean's tide  
Under the wide wide ocean Maybe its time to go?  
Maybe its time we went?  
Youre making a spectacle  
Maybe its time we left? I dont wanna spoil your night  
I dont wanna hurt your pride

Maybe its time to fly  
Maybe its time? Maybe its time to go?  
Maybe its time?
