Deja Vu

Something for Kate

Light globes wash up all along the beach
And they light me up with and they light me up with certainty
But you calculate coincidence and circumstance and turbulence
Gotta see what it is and it's everything and it's endlessCause baby can't see through
All this matter and make up and deja vu
Yeah we drift here alone with nothing to do
Until one of us makes the other one come trueShe wants to meet her fate but travel by free will
But you can't have both and you can't stand still, still, still
I'll be the luckiest man in the universe if cause and effect doesn't get there first
But she keeps looking for patterns and the world just happensCause baby can't see through
All this matter and make up and deja vu
Yeah we drift here alone with nothing to do
Until one of us makes the other one come true
Yeah one of us makes the other one come true
[Bridge]
