

# Gomorrah

## Sodom

Precursors of the menace  
Admonition of the death  
Obscurity and secret force

What are these symbols standing for?Gomorrah, mother of harlotry  
Gomorrah, ascendancy foreverAn insidious looking creature

Beneath the frantic fault  
Ready to be delivered

The son of our lordGomorrah, abomination of the earth

Gomorrah, wrath and fornicationHe is crying with a resentful voice  
Like a roaring lion

Sin city will burn he has no choice

They have to pay the priceGomorrah, noisome grievous sore  
Gomorrah, judgement of the whoreAnd their dead bodies

Shall lie in the streets  
Where also our lord

Was crucified and killedGomorrah, downfall is near

Gomorrah, they didn't realise

Gomorrah, the have to disappear

Gomorrah, blessed are the dead
