

Spread A Little Love Around

Darryl Worley

Sometimes this crazy world can make us all feel bad
I sit and watch the news and just get mad
We need to stop and smell the roses in the ground
So get out today, you spread a little love around
Talk to a neighbor, volunteer a favor
Help out a stranger when his car's broke down
Give your wife a kissin', when your kids talk, listen
It makes a lovely sound, spread a little love around
You know it don't take much to make somebody's day
A kind word of tender touch goes a long way
We can change the whole world if we start in our hometown

So get out today, you spread a little love around
Tell your mom you love her, bear hug your brother
Treat your sister to a night out on the town
Throw the ball for rover, wrestle in the clover
Put a smile on that old hound, spread a little love around
Slap your sweetheart's fanny, tickle on old granny
Dance with the kids and act just like a clown
A little tiny kiss and hug, well everybody needs that stuff
Turn a frown upside down, spread a little love around
When this world gets you down, spread a little love around
