

The Way That I Want You

[Tanita Tikaram](#)

We're not talking
I'm not talking sensibly enough
You know the soul of a man is many colored
Soul of a man one to another, wants you another day I'm not wishing on a star
Talk, the soul of a man is many colored
Soul of a man wants you another, another day From the airport to be by your side
From a reading and that's the one
That hurts my pride from the churchyard into your trust
To the talk that we must, we must rekindle To the way I want you, to the way I don't want
Nothing from you, nothing from you, nothing from you
