

# Destruction

## Joywave

Will the soundtrack kindly produce a sound? Go on, don't be nervous, go ahead, any sound. Heheh, well, that isn't quite what I had in mind. Yeah Oh my god there's nobody who can set me right.  
I've been sent to torch the palace down in broken light. I-I wanna know who you took to the one laying on the floor, frozen to the core.  
I-I wanna know who you took, there's nobody anymore, nobody anymore. Oh my god I'm a giant with an appetite.  
Push your people to the ground, runnin' 'round the holes at night. I-I wanna know who you took to the one laying on the floor, frozen to the core.  
I-I wanna know who you took, there's nobody anymore. Creepin' round and saw, anything I didn't like you tried to hide.  
I've been creepin' round and saw, a little thing I didn't like you tried to hide, from me I-I wanna know who you took, there's nobody any. Nobody anymore [x2]
