

# Wet Shoes

## Frank Hamilton

Wet shoes  
With the water soaking through  
Bad news  
That I deliver to you.  
And tired eyes  
Cling to the rhythm  
It's past nine.  
Where has the daylight gone?  
Has the daylight gone?

But if you call my name then I'll come running  
It's like we're shooting in the dark.  
And if you pull the trigger  
Please say something  
Before I fall apart again  
Before I fall apart again.

And we got issues  
Not saying I won't miss you  
But I'm going my way  
And you should do the same.  
We got problems  
Not saying we won't solve them  
But they'll only come again  
I swear it never ends.  
(Call my name then I'll come running)  
I swear it never ends.

Wet shoes.  
Situations soaking through  
Got no clue  
I spend the morning without you.  
I've tried to find my own rhythm  
but in side  
You know that we're going round  
You know that we're going round.

(If you call my name then I'll come running)  
We got issues  
Not saying I won't miss you

But I'm going my way  
And you should do the same.  
We got problems  
Not saying we won't solve them  
But they'll only come again

And if you call my name then I'll come running  
And if you call my name then I'll come running

Wet shoes.  
Always bring me back  
bring me back to you

Wet shoes.  
Always bring me back  
bring me back to you

And if you call my name then I'll come running  
(Always bring me back, bring me back to you)

And if you call my name then I'll come running  
(Always bring me back, bring me back to you)

And if you call my name then I'll come running  
(Always bring me back, bring me back to you)

And if you call my name then I'll come running  
(Always bring me back, bring me back to you)
