

# Happy Tantrum

## OLD

happy day again today i died with you again today  
the sun will burn again today you and i will drown my  
friend today is here again today and you will kill me  
again today i will kill you again today is here againtoday happy day  
i was not waving  
i was drowning  
i laugh when i think of it  
you laugh as i cry  
I smile as you pull me under  
you cry as i drown  
from the shore i can feel you pull me under while  
i pull youi'm happy and why not?  
i've had days like this
