

# I don't Like It

Elysia

I don't know why I'm writing you  
I have nothing to say  
I think I feel alone  
And very out of place  
Why is it when I feel  
That things are going to change  
Nothing ever does  
It always stays the same Every morning I wake up it's quiet,  
and I DON'T LIKE IT  
Somebody please hear me  
When I want someone to be with me  
There's no one there  
It hurts, and the fact is probably  
No one even cares  
To be on my own is fine  
But always being alone  
Makes me want to scream inside And then I'd seem to have  
One good day out of five  
It might make me miss the day  
Which made me feel alive Every morning I wake up it's quiet,  
and I DON'T LIKE IT  
Somebody please hear me  
When I want someone to be with me  
There's no one there  
It hurts, and the fact is probably  
No one even cares  
To be on my own is fine  
But always being alone  
Makes me want to scream inside I am such a fool  
I don't have ways to change  
To something that I'd want  
It always stays the same  
And if something does change  
It'll last for a little while  
And go back to the way  
It was right from the start  
Oh, oh, oh, oh, oh, oh  
La la la la la la la la la  
La la la la la Every morning I wake up it's quiet,

and I DON'T LIKE IT  
Somebody please hear me  
When I want someone to be with me  
There's no one there  
It hurts, and the fact is probably  
No one even cares  
To be on my own is fine  
But always being alone  
Makes me want to scream inside
