

Hold Your Breath

Denali

What's your reason to kill or not
This has come a long way
Too fake for the season, is it real or not
 Totally in this i'll stay
Too many sensations now for a good feeling
 I'll take a step back
Let's go under and hold our breath
 Who's got the reason now
 In one little mouth it goes
 Never will surface
Too many sensations now for a good feeling
 I'll take a step back
Too many sensations now for a good feeling
