Nocturna

Ultratango

Nocturna steals the nightHigh heels of crystal
Stuck in the heart
Daylight that heals
The full moon scarsSpider strategy
And the wish to be
At one with me
Throughout the frightIt is so real
So full of light
(Nocturna steals the night)
It is so real
So full of light
(Nocturna steals the night)Sister of Cain
All our breed slain
The youthful oath
Remains the sameLe mal de vivre
That never ends
But the hunt goes on
Throughout the nightIt is so real
So full of light
(Nocturna steals the night)
It is so real
So full of light
(Nocturna steals the night)It is so real
So full of light
(Nocturna steals the night)
It is so real
So full of light
(Nocturna steals the night)It is so real
So full of light
(Nocturna steals the night)
It is so real
So full of light
(Nocturna steals the night)
