Upside Down (feat. Caleb Hart)

Illvis Freshly

It goes round and round baby upside
Running running round all around this town
Never been lost then you'll never be found
Just wanna get up she don't wanna come down
It goes round and round baby upside
Running running round all around this town
Never been lost then you'll never be found
Just wanna get up she don't wanna come down

She twenty something she partying doing what she like
She live it up but by Monday feeling something ain't right
She lose herself in that music she really feel it though
She been through hell and abuses it helps her heal her soul
She's got a couple bad habits but keep 'em in control
A few regrets but forget it nobody needs to know
She made mistakes but forgive herself, that's just how she grow
She felt the heartache it burned but she learned to let it go
She's in that mirror, putting lipstick on singing her song
She paint her face with a smile like there ain't nothing wrong
She dance around her apartment with just her panties on
Pregame, after party, live it up until it's gone
Sometimes she wonder how long 'fore it catches up with her
How many 6 am walk of shame memories a blur
She find a piece of the passion but there ain't nothing pure
Beautiful disaster you know I fucking love it girl

It goes round and round baby upside
Running running round all around this town
Never been lost then you'll never be found
Just wanna get up she don't wanna come down
It goes round and round baby upside
Running running round all around this town
Never been lost then you'll never be found
Just wanna get up she don't wanna come down

So now she's ageing and saying she wants to change her life
Stay away from vices that labelled her as the crazy type
She tells herself she's gonna become someone that she likes
Reinvent herself as someone better- just not tonight

She used to think that all this drinking it was just a phase
She used to think that she would her way and act her age
She thinks these thoughts as she's busy dancing upon a stage
Kinda ironic she already caught up in a cage
She in the mirror now but nothing that be on the wall
To cap off clubbing and key bumps up in the bathroom stall
She asks the mirror who's the fairest lady of them all
But it doesn't say shit because sometimes life ain't fair at all
Let alone a fairy tale, get rescued and married well
She wanna find her way out but just can't get off that carousel
Looking for love, she's busy hunting somebody else
I just want to tell her all you need to do is love yourself!

It goes round and round baby upside
Running running round all around this town
Never been lost then you'll never be found
Just wanna get up she don't wanna come down
It goes round and round baby upside
Running running round all around this town
Never been lost then you'll never be found
Just wanna get up she don't wanna come down

Daylight come and she don't wanna come down
Turning up the music and she loved that sound
Painted on a smile like the tears of a clown
My lady here I am what ya gonna do now
Daylight come and she don't wanna come down
Turning up the music and she loved that sound
Painted on a smile like the tears of a clown
My lady here I am what ya gonna do now

It goes round and round baby upside
Running running round all around this town
Never been lost then you'll never be found
Just wanna get up she don't wanna come down
It goes round and round baby upside
Running running round all around this town
Never been lost then you'll never be found
Just wanna get up she don't wanna come down
