Play On

Amanda Overmyer

Blank pages, begging to be filled
Only a story or words can reveal
My chest it pains, with repercussions of thoughts
How can I deny myself experience?
How can I leave this place thats carried me on?Stay, lead a life of fear
Oh play, make use of these tears
Daring I, never meant to make this sacrifice
But I know that youll be waiting after dark
So Im gonna Play OnPlay onAway from home, its never the same
Day to day, its all a game
Simply put: I get so damn tired of hearing hey little girl look what I do for you,
you could rock my would its true, Im working for youNow stay, lead a life of fear
Oh play, make use of these tears
Daring I, never meant to make this sacrifice
But I know that youll be waiting after dark
So Im gonna Play OnIn the end, when my lines are cold and tired
And these years, well theyve marched across the tired eyes
No longer The Chile, well Ill pull back into the drive, where my heart liesStay, lead a life of fear
Oh play, make use of these tearsOh stay, lead a life of fear
Oh play, make use of these tears
Daring I never meant to make this sacrifice
But I know that youll be waiting after dark
Stay yeah
Stay yeah
Stay yeah
Stay yeah
I said stay
Oh Im going to make use of these tearsDaring I never meant to make this sacrifice
But I know that youll be waiting after dark
So Im gonna Play On
