

# Artie

## Goo Goo Dolls

Walking over the same ol' grass  
Trying to stay on the beaten path  
I don't need to apologize  
For the things I don't recognize Artie, take a look at me  
And I wanna think about all the little things  
That piss you off about me Hey there, man  
I'll take and scratch your cat  
But I'll apologize for all the little things  
That piss you off about me Walking over the same ol' ground  
Thinking 'bout all the things we found  
I don't wanna let it bring me down  
I'm up and out of this dirty town Artie, take a look at me  
But I wanna think about all the little things  
That piss you off about me Walking over the same ol' grass  
Trying to stay on the beaten path  
I don't need to apologize  
For the things I don't recognize Walking over the same ol' ground  
Thinking 'bout all the things we found  
I ain't gonna let it bring me down  
Up and out of this dirty town You, you, no, no  
Don't do, don't do  
Don't do anything, anything irrational  
Here's the starting line  
What happened?
