

I'm Slowly Turning Into You

The White Stripes

Im slowly turning into you but you dont know this to be true
You say Im lying and I never really tell you the truth
But your face is gettin' older so put your head on my shoulder
Yeah, put your head on my shoulder Yesterday it hit me that I do all the little things that you do
Except those same little things that you do are annoying
Theyre annoying as hell in fact, it kinda struck a little bell in fact
I like to keep my little shell intact And Im slowly turning into you
And Im slowly turning into you Then somethin else came to mind, that was the mirror
It made everything clearer
That youre more beautiful, compelling and stronger
It didn't take much longer just for me to realize
I love all the little things and the beauty that theyre gonna bring I dig your little laugh and Im lovin your quick
wit
I even love it when youre fakin' it
And it might sound a little strange for me to say to you
But Im proud to be you And Im slowly turning into you
And Im slowly turning into you
And Im slowly turning into you
