Throw It Away

Black Lips

I see you walking around my block
you think you're something, but you ain't got
nothing I don't wanna see you coming around
you're busted up just let it down
It's hard to see with your head in the ground
?and then you throw it away!
and then you throw it away!
just throw it away!
and then you throw it away!Talking but you done nothing new
Flying that flag since 1962
Strutting around with your disgrace
Hanging a smile right on your right face
but you sure sound worried again
Going out just to?and then you throw it away!
oh, and then you throw it away!
well don't throw it away
and then you throw it away!
