

# To the Stars

**Modestep | www.AudioCastle.net**

Now that you've gone to the stars  
Now that the storm has finally come  
So now that you've gone to the stars  
Now that the storm has finally comeWhen these colors fade to gray,  
    You're a million miles away.  
When these colors fade to gray,  
    You're a million miles away.  
When these colors fade to gray,  
    You're a million miles away.  
When these colors fade to gray...Now that you've gone to the stars  
Now that the storm has finally comeSo now that you've gone to the stars  
    Now that the storm has finally come  
    So now that you've gone to the stars  
    Now that the storm has finally come  
    So now that you've gone to the stars  
Now that the storm has finally comeWhen these colors fade to gray,  
    You're a million miles away.  
When these colors fade to gray,  
    You're a million miles away.  
When these colors fade to gray,  
    You're a million miles away.  
When these colors fade to gray...So now that you've gone to the stars  
    Now that the storm has finally come  
    So now that you've gone to the stars  
Now that the storm has finally comeNow that you've gone...
