

# Ultima Esperanza

## The Dresden Dolls

Downloading doves on your fancy computer  
You're shooting for love in the dark  
Hey, foks, you've found her; now go instant message  
Her name is a pretty good start

Ultima sits in her bedroom in Texas and  
Waits for her hamsters to touch  
She lost her legs in a car crash three years ago  
She doesn't get around much

But she is hoping someday  
Somebody will take her away

Now that you got her a dress you can send her  
A matching attachment and face  
Slick rhododendrons you make out of paper  
With flowers that never lose shape

You have a video camera strapped to  
Your forehead in case she is true  
Smiling, rewind as we die in slow motion  
As if it's not happening to you

Don't be afraid of the dark ages, darling  
You may have to wait but a letter is coming  
With mixes of Marilyn songs  
And pictures she took at the prom  
Knowing her name is enough  
Ultima

Foks trotting, globes rotting under your fingertips  
Tappng for oil in veins  
Surely you won't think to hold that against me  
It's such an unusual name

Some one hoping to find  
Her limbs in an auction online  
Knowing her name is enough  
Ultima Esperanza  
Ultima Esperanza
