New Element

Fact

Crucify (woman in the sky, heard she use a dildo)
(Put it to your eye)
Crucify (woman in the sky, run ahead to the vicious)
(That be sleepin')
Falling from the heavens, spread the time in stardust
I receive the static flashing on the formula
(I've become a new element)
()
Cause it's where you're staying and you'll never ever move in
Cause it's where you're staying and you'll never ever move in
(You'll never ever move in)
()
Crucify (woman in the sky, direction, lexify)
Crucify (woman in the sky, crisis up in the rye)
Falling from the heavens, spread the time in stardust
()
Cause it's where you're staying and you'll never ever move in
Cause it's where you're staying and you'll never ever move in
(You'll never ever move in)
