The One Where She Stayed

Marty

Italians call it the thunderbolt
I got butterflies in my stomach, it makes me feel uncomfortable, yeah
But I'll still run to, wait, nah
I'ma fly to you, yeah
And I'ma grab that moon by a lasso and bring right down to you, yeah
I'ma hold it down for you with no question
R.I.P. to my exes
There's only one key to my heart and you're the only one who has access
And I love you girl
Together we're nothin' but trouble, girl, yeah
And before you leave, I wrote a song ?

Why don't you just stay right here with me?
You don't need to go, you don't have to leave
Why don't you just stay right here with me?
Always and forever

Let's stay up until 4 AM
I gotta work tomorrow but I'll be callin' in
I'd rather be with you, cancel all your plans
And I'm sure your boss'll understand
And if he doesn't, let me talk to him
I'm a smooth talker like a New Yorker
There ain't nothin' I wouldn't do for ya
I feel like Jesse, cause I'm so excited
She likes my jokes, so I'm not embarrassed
Why are you datin' if you don't want marriage?
Let's be awkward and weird together
And before you leave I gotta question for ya

Why don't you just stay right here with me?
You don't need to go, you don't have to leave
Why don't you just stay right here with me?
Always and forever
