

# Astro Zombies (Misfits)

## My Chemical Romance

Oh, all I want to know  
All I want With just a touch of my burning hand  
I sent my astro zombies to rape this land  
Prime directive, exterminate  
The whole human race And your face just drops in a pile of flesh  
And then your heart, heart pounds  
Till it pumps in death  
Prime directive, exterminate  
Whatever stands left And all I wanted to say  
And all I gotta do  
Who'd I do this for  
Hey, me or you And all I wanted to say  
And all I gotta do  
Who'd I do this for  
Hey, me or you Oh, all I want to know  
All I want With just a touch of my burning hand  
Gonna live my life to destroy your world  
Prime directive, exterminate  
The whole fuckin' race And your face just drops in a pile of flesh  
And your heart, heart pounds  
Till it pumps in death  
Prime directive, exterminate  
The whole fuckin' race All I wanted to say  
And all I gotta do  
Who'd I do this for  
Hey, me or you All I wanted to say  
And all I gotta do  
Who'd I do this for  
Hey, me or you Oh, all I want to know  
All I want
