

Dancing in the Dark

The Novatones

She was my Sunday
Who did a lot of Mondays
She had me lost from the start
She was a dreamer
And I was a believer
I thought only death could make us part
I knew one day
She would've found me
I would always go for
She ____ me closely
And whispers gently
'you could be naked in my heart'
We could be dancing in the dark
We could be dancing in the dark
We could be dancing in the dark
Now it's all over
I could see older
Three little pictures on my phone
Trying to get this
But I'm gonna forget this
Suddenly I'm standing on my own
I knew one day
She would've found me
I would always go for
She ____ me closely
And whispers gently
'you were always naked in my heart'
We used to be dancing in the dark
We used to be dancing in the dark
We used to be dancing in the dark
All these little things I've found
Now I'm fighting for the crown
Sifted memories
Dirty little secrets going 'round
Just tell me I'm the one to take my hand
(wicked cool guitar solo)
She was my Sunday
Who did a lot of Mondays
Now my old ____ in a bar

Show me I could keep her
But I didn't believe her
Now there was a __ but it's still dark
I knew one day
She would've found me
I would always go for
She _____ me closely
And whispers gently
'I could feel you naked in my heart'
We were always dancing in the dark
We were always dancing in the dark
We were always dancing in the dark
We were always dancing in the dark
We were always dancing in the dark
