

Fireworks

Embrace

I stretched over to reach you
I tried to meet you, I've been wrong
Now the fireworks in me are all gone
It's time I realized My girl, you make all the smart moves
And see through all my wrongs
When the fireworks in me are all wrong
Well, then I realized And I don't need convincing
I've seen enough to want to try and change things
You fell in love, I fell in line, I thought I found my place
Before I knew how much it cost to play it safe Have I let you?
I never let you down I work all day and I won't fight
When it feels right and it's wrong
When the fireworks in me are all gone
Well, then I realized And I won't need convincing
I've seen enough to want to try and change things
You fell in love, I fell in line, I thought I found my place
Before I knew how much it cost to play it safe Could I leave you?
I never let you down
