

Suntrap

Forever Cult

I get so caught in the sun trap , i've been waiting to get back

I get so lost in the sunset, you know

i get so lost in your eyes as they burn in a hole

I'm paranoid of the price i will pay for it all

And i feel now that it's happened, i only feel better

And now that it's after, i finally feel fed up

You know i go out most nights now , can't stand to witness when i'm walking on egg shell

i started smoking in the crush

I get so caught in the sun trap, i've been waiting to get back

I get so lost in the sun set, you know

And i feel now that it's happened, I only feel better

And now that it's after, i finally feel fed up

You know i go out most nights now, can't stand to witness when i'm walking on egg shell

I started smoking in the crush

i started smoking in the crush

I started smoking in the crush
