Same Old Story

The Oppressed

look around your country and you'll see the state it's in
homelessness and poverty, where did it all begin
hospitals are closing and the schools are falling down
the Tories got the lifeboat and the rest of us can drownAnd everyday we get the same ol' story
just another lie from another Toryone law for the wealthy man who lets his money speak
no law for the working class coz justice don't come cheap
so realise whats going on before it gets too late
open up your eyes and see the bastard you should hateAnd everyday we get the same ol' story
just another lie from another Toryone day you will understand just what they do to you
and then when you see the light you'll know just what to do
coz all the years of suffering and all the broken hearts
will be remembed when the revolution starts
And everyday we get the same ol' story
just another lie from another Tory
