

Immortal Love

To / Die / For

Looking deep into your eyes
no better place to hide
when i'm scared and i'm weak
you can help me before i bleed you can help me forget the pain
that i feel deep inside
let me shed these tears
let me just be with you you're my saviour again
you are my angel my blood runs in you
your blood runs in my veins
we love this kind of immortal love open up the scars
and give your blood
i will give you mine
i think it's what unites this is all i believe
you're the one i trust
i believe in our love
and i always will
