Riot

Dragonette

Thats right, lookin like you dont give a huff tonight
Im not shuttin up tonight la la la la la la come onI wanna do good but the goods all done
Im on another kind of mission
Roundin up, I dont wanna go get some
Get a like for the livinFeel it shattering the conscience
Right when I bump into the rising sun
Thats higher than I want now
I pull it back down
And keep it goinCause dance like I started a riot
Ive got the fuse already ignited
And its too late now for the fire
Although I think I mightve started a riot
Riot, oh noI dont make the rules but I break them up
Im just a love lookin dangerous
Roll over the cup, turn your counter up
And Im ready now to get into itGet down underneath the blackout
One thing, lights and the electrics
Its on oh something so yea lets go
Lose it to the mid flowCause dance like I started a riot
Ive got the fuse already ignited
And its too late now for the fire
Although I think I mightve started a riot
Riot, oh noOh oh oh no
Oh oh oh no
I think I mightve started a riot
Oh oh oh no
I think I mightve started a riot
Riot, oh noThats right, lookin like you dont give a huff tonight
Im not shuttin up tonight la la la la la la come on
Down down, bring it down
Lot of whole up movin on
Everything now all I want
Hit me with that punchThats right, lookin like you dont give a huff tonight
Im not shuttin up tonight la la la la la la come on
Down down, bring it down
Lot of whole up movin on
Everything now all I want
Hit me with that punchAnd I dance like I started a riot
Ive got the fuse already ignited

And its too late now for the fire
Although I think I mightve started a riot
Riot, oh noOh oh oh no
Oh oh oh no
I think I mightve started a riot
Oh oh oh no
I think I mightve started a riot
Riot, oh no
