

# Liza

## Joan Armatrading

I see you looking at me  
I know we're from different sides of town  
    You've never travelled  
    And I've been all around  
    Hey  
    Let me take your hand  
    Hey hey yea  
    From where I stand  
    You're in need of a friend  
    So let the goodtimes roll  
    Let the good times roll  
    I see something in you  
I see it how come they don't  
    You're a good person  
    And they'll come around  
    Hey let me take your hand  
    Hey hey yea yea  
    I can see you change  
    You're in need of a friend  
    So let the good times roll  
    Everybody say  
    Don't hang around with Liza  
    She's from the other side of town  
    The part where folks live on welfare  
The part where you find needles on the ground  
It's the side where the kids hang out in gangs  
    And wear the hoodies  
    And the masks  
    To hide their face  
If you make friends with a girl like that  
    Well it's a disgrace  
    Everybody say  
        This that  
        This that  
        This that  
        This that

Hey Liza  
I'd like a friend like you  
Hey Liza  
I think you're kind of cute  
I'm gonna make up my own mind  
I'm gonna make up my own mind  
I see you looking at me  
I know we're from different sides of town  
You've never travelled  
And I've been all around  
Hey Liza  
Let me take your hand  
Hey hey yea yea  
yea yea yea  
From where I stand  
You're in need of a friend  
So let the goodtimes roll  
Let the good times roll  
Let the good times roll  
Let the good times roll
