why can't you just shut up
you're giving me a headache
you act so calm and asinine you're always first to argue
without the grounds to back it
without your knees you can't walk far but for some reason i still hold your hand, i still hold your hand
and unexplicably, kiss you goodnight, i kiss you goodnight i will always love you
til something better comes
and i will never leave you
unless you drive me to why must you talk so loud
and chew my ear off
when it's my question you find silence but when you're crying, i still hold you tight, i still hold you tight
and unexplainably, still smell your hair, i still smell your hair i will always love you
til something better comes
and i will never leave you
unless you drive me to
