

Banga! Banga!

Austin Mahone

Lemme get it, ain't no playing with it
Lemme get it, Lemme get it

Fire, make it shoot shoot shoot shoot shoot
You're so automatic
Can't none of them see you
Five stars going off on 'em baby
I love how you flex
Your style is so crazy, you're a fire on the set
You're a problem, girl, gotta get you
Ain't no waitin' with it
The one you came here with
Tell that boy forget it
Too faded's what to tell him
'Cause I got him next
You don't need no explanation
Let him see and figure it out

Your eyes are telling that you're riding with me
But I'd be lyin' if I didn't admit
The things I wanna say to you right here
I didn't said it but I just can't say it 'til I said it

You're a banga banga banga banga
I wanna pledge a bet
Before the night is over
Girl, I'm gonna make it that
So, promise if I make you mine
So, promise if I make you mine
You ain't gonna play with that
Show me where that turn up at

You're a banga banga banga banga
I wanna pledge a bet
Before the night is over
Girl, I'm gonna make it that
So, promise if I make you mine
So, promise if I make you mine
You ain't gonna play with that

Show me where that turn up at

You gotta promise, if I let you hop up in the Jeep

You gon? turn up in the seat

You like ridin?, don?t ya?

(You ain?t gonna play with that)

You like ridin?, don?t ya?

(You ain?t gonna play with that, show me where that turn up at)

I don? said it, now what you gon? do

Formal introduction

You got me focused, now it?s time for you to show me something

You?re like a trophy on my dash

A diamond that you are

Love to see you shining like a proper superstar

Got me asthmatic

'Cause you?re like a perfect ballerina

I?m on my Brad Pitt, come and be my future Angelina

(Now you know enough to get it)

Baby, if you let me love you, I ain?t never gonna stop

You?re a banga banga banga banga

I wanna pledge a bet

Before the night is over

Girl, I?m gonna make it that

So, promise if I make you mine

So, promise if I make you mine

You ain?t gonna play with that

Show me where that turn up at

You?re a banga banga banga banga

I wanna pledge a bet

Before the night is over

Girl, I?m gonna make it that

So, promise if I make you mine

So, promise if I make you mine

You ain?t gonna play with that

Show me where that turnt up at

Show me-show me, where that turn up-turn up

Show me-show me, where that-where that

Show me-show me, turn up-turn up

Where that turn up at

Your eyes are telling that you?re riding with me

But I?d be lyin? if I didn?t admit

The things I wanna say to you right here
I didn't said it but I just can't say it 'til I said it

You're a banga banga banga banga
I wanna pledge a bet
Before the night is over
Girl, I'm gonna make it that
So, promise if I make you mine
So, promise if I make you mine
You ain't gonna play with that
Show me where that turn up at

You're a banga banga banga banga
I wanna pledge a bet
Before the night is over
Girl, I'm gonna make it that
So, promise if I make you mine
So, promise if I make you mine
You ain't gonna play with that
Show me where that turn up at

You gotta promise, if I let you hop up in the Jeep
You gon' turn up in the seat
You like ridin', don't ya?
(You ain't gotta play with that)
You like ridin', don't ya?
(You ain't gotta play with that, show me where that turn up at)
You like ridin', don't ya?
