

# Come In

## Niyoki

Come in  
Come in  
For one last dinner  
That I will make you

Come in  
Come in  
It is a small one  
For I am no cook

You have a long way  
Where you are going  
No longer welcome  
And I am happy  
Yes I am happy  
You will be leaving  
Things will be changing  
For you

You have done much for me  
But now you're leaving  
It's back to Egypt  
That you are going  
They are not family  
They are not friends  
But a false history  
And you aren't sorry

Come in  
Come in  
Or am I silly  
For saying such things  
Am I implying  
That you must come again
