

# Golden Days

## Drake Bell

These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways  
I show you how we take what we're given

Alright

Yeah

You can say what you want  
We don't need your permission  
Cause you're so busy talkin'  
That you don't even listen  
You can do what you want  
You know that we don't mind

You got the years

But we got the time

These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways  
I show you how we take what we're given

You can say what you want  
We don't need your permission  
With all the things that you hide

How do we look suspicious  
Better look straight ahead  
Don't look over your shoulder  
Because you'll wake up to find

That we've taken over

These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways  
I show you how we take what we're given  
(We have the strength to survive)

These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways  
I show you how we take what we're given

These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways

I show you how we take what we're given  
Don't take what you're given  
Don't take what you're given  
We won't take what we're given
