

About to Crash (Reprise)

Dream Theater

I'm alive again
Darkness far behind me
I'm invincible
Despair will never find me I feel strong
I've got a new sense of elation
Boundless energy
Euphoria fixation Still talk to just get by
Seems to me he loves to try
With all I want you to is cry
Who'll be other I know felt suicide It's even though I came so high
I know the way you'll never fly
When I fought her the first time
It could be standin' by
(Will you be there with me)
