

Robot

Miley Cyrus

You have turned me into something
That I'm not meant to be You reprogrammed me
And made me into the man
That you want me to be Oh my God, I didn't know
Anything that I should know
You were just the one to show me how Everything I had to do
Star again, all brand new
But I didn't know, oh how Waiting here for your call
Waiting for instructional
Booklet to tell me how Nothing that I ever do
Was ever good enough for you
You have changed my program and now Like a robot taking me over
I don't know nothing
What can I do? I'm a changed man
You had me programmed
It's part of your plan, what can I do? Like a robot taking me over
I don't know nothing
You changed me, reprogrammed me Like a robot taking me over
I don't know nothing
What can I do? Oh my God, I didn't know
Anything that I should know
You were just the one to show me how Do this, do that, you would shout
If I didn't do it now
Then you would turn my lights out
(Out, out) Waiting on your beck and call
Waiting for instructional
Booklet to tell me how But I seem to have go
I am now your robot
Not allowed, out on my own Like a robot taking me over
I don't know nothing
What can I do? I'm a changed man
You had me programmed
It's part of your plan, what can I do? Like a robot taking me over
I don't know nothing
You changed me, reprogrammed me Like a robot taking me over
I don't know nothing
What can I do? Oh my God, I couldn't see
You were really changing me
Making me into somebody new

(New, new) You were just controlling me
You were just composing me
Now I wanna refuse, oh Like a robot taking me over
I don't know nothing
What can I do? I'm a changed man
You had me programmed
It's part of your plan
You changed me, reprogrammed me
You changed me, reprogrammed me Like a robot
(I'm not your robot)
Taking me over
(I'm not your robot) I don't know nothing
(I'm not your robot)
(I'm not your robot)
(No more) (I'm not your robot)
What can I do?
