The Scene

Animal Chin

The Scene
(Graham Russell, Mark Towner Williams, Cliff Rehrig)It's another lovely day
Are we still so far away
And how can I share it with youIt's not easy to believe
Are we both about to leave
Without ever saying, I do
I still love you(Chorus)Just make me part of the scene
Say we're together, always forever
And everything else in betweenJust say we're part of the scene
I don't want to hear it, I just couldn't bear it
If things weren't as good as they seemYou can say I'm not the one
That a lot of faith has gone
The bridges were never quite crossedEvery grain of truth, we deny or prove
Is somewhere before it gets lost
And is found again(Repeat Chorus)What if these feelings are all in my head
Flying around me in a world of their own
What if there's nothing that needs to be said(Repeat Chorus)Just say we're part of the scene
Say we're together, always forever
And everything else in between
Just say we're part of the scene
Just say we're part of the scene
Just say we're part of the scene
