

Limbo

Dave Coffin

Sister where are you going?
I didnâ€™t think that you were unhappy
If youâ€™re looking for meaning I donâ€™t think
Youâ€™ll find it out on the road.
What do you find so unpleasant
About this side of the country?
Running away from the problem
Works a lot on the solution at all.
Oh no no no no

Sister come back to your senses
Donâ€™t stray too far from where you came from
Pulling up your roots stir your foundationâ€™ll
Spin you out of control
Whatâ€™s so appealing about a place
Thatâ€™s simply across the ocean?
There ainâ€™t no reason to leave
The situationâ€™s just as bad abroad.

Oh the thought of you leaving is bad
But the suspense is even worse
Oh if you wanna go then go
If you wanna stay then do so
just donâ€™t leave me leave me leave me
In a limbo
Oh no no no no

Sister listen to yourself
Youâ€™re just running away
You gotta stick it out
It ainâ€™t easy but you gotta stay
If you go the stars ainâ€™t aligned no more
Yeah something will be wrong with the world
You gotta stick it out even though
The situation is gray

Oh the thought of you leaving is bad
But the suspense is even worse
Oh if you wanna go then go
If you wanna stay then do so

just donâ€™t leave me leave me leave me
In a limbo
Oh if you wanna go then go
If you wanna stay then do so
just donâ€™t leave me leave me leave me
In a limbo
Oh no no no no

If you only listen to your senses
Yeah baby they tell you to go
You gotta do what you gotta do
Even if it means going alone
But if you want some direction
Think youâ€™re making a mistake
You canâ€™t fix anything
by running it away yeah

Oh if you wanna go then go
If you wanna stay then do so
just donâ€™t leave me leave me leave me
In a limbo
Oh if you wanna go then go
If you wanna stay then do so
just donâ€™t leave me leave me leave me
In a limbo
No no

leave me leave me
In a limbo
No no

leave me leave me
In a limbo
No no

leave me leave me
In a limbo
No no
