

Total Eclipse of the Moon

Enigma

Miles away from light at noon
Total eclipse of the moon
Many reasons to believe in life
Just listen what it's telling you Come and have a look inside
Total eclipse of the moon
Don't be childish, don't be so cruel
I'm feeling just lonely without
Without you I can see the wide horizons
But debts have to be paid
Our ways will cross again someday
Believe, and come back to you
I'll see you soon Time doesn't say hello
Total eclipse of the moon
Many nights in our lives before
I was dreaming to be just beside
Beside you Total eclipse of the moon
I'll see you soon
