Jade

Chimaira

Jade, jade, jadeFace black, another shadow of innocence tainted
Gave back all the lights and glitter
Wrong track again and again it stings
Wish you all could feel like thisTwelve is for the reason of regret
Nine is for the pain that I'm caused
Will strife ever cease? Someday
Fuck this mind that is made to hateComplete the task of humility
Restrained from who they want me to be
That's what they want me to be
That is not quite good enough for meFuck you and your thoughts on me
Fuck you and your thoughts of me
Fuck you, how can I not be me?
Fuck you, I will never let you take meI will never be that good little one
I can never see what is so good about life
I can never change just who I am
Just what it is I think I am doingMy hands fell down
Now I know I failed
You were not there to pick up
The waste of this pathetic taleMaybe I should just end all this right here
Would you like that? Would you like that?
Maybe you could cope
Knowing that you all have succeededI am staying here to betray all of you
I am staying here to betray all of you
Never failing me again
Never failing me again, never failCut a little, it bleeds slowly
Cut a little, it bleeds slowly
Cut a little, it bleeds slowly
It bleeds slowly, can't you see it ooze?Cut a little, it bleeds slowly
Cut a little, it bleeds slowly
Cut a little, it bleeds slowly
It bleeds slowly, can't you see it ooze?I'm going to save me
I'm going to save me
I'm going to save me
I'm going to save meMy eyes turn the color jade
My eyes turn the color jade
My eyes turn the color jade
My eyes turn the color jadeI look at everyone around me
I am so sick of this place
Anyone and anything makes me sick

I just want to end it all
I return to my room
Walls white with black shadesThe reasons are not for your ears
The feelings are not for your heart
I circle in tears wishing, hoping, dreaming
Can I find a way out besides this?I need it, I want to be where you are
I miss youI look at everyone around me
I am so sick of this place
Anyone and anything makes me sick
I just want to end it all
I return to my room
Walls white with black shadesThe reasons are not for your ears
The feelings are not for your heart
I circle in tears wishing, hoping, dreaming
Can I find a way out besides this?I need it, I want to be where you are
I want to be where you are
I want to be where you are
I want to be where you are
I want to be where you are
I want to be where you are
I want to be where you are
