I Want To Know

The Fugs

I want to know
What you are waiting for to change your life
My heart is a door
And all of the feelings run into my mind
We're on again, we're off again
I try pretending this will mend
Cause I want you to stay
How could you know
How I am feeling
Nothing will change unless you start giving
I want to know
Why you still call me
Nothing is changing
I am left dealing inside
I'm still confused with all of the feelings here inside my heart
I wish you were here
So that I can see you
Look into my eyes
We're on again, we're off again

I try pretending this will mend
Cause I want you to stay
How could you know
How I am feeling
Nothing will change unless you start giving
I want to know
Why you still call me
Nothing is changing
I am left dealing inside
I am left dealing inside
We're on again, we're off again
I am left dealing inside
How could you know
How I am feeling how I am feeling
Nothing will change unless you start giving
I want to know
Why you still call me
Nothing is changing
I am left dealing inside
