

Get Up

Luke Benward

Standing in line with some friends of mine
Look to my right saw a guy outside
Asking, asking for some change Look to my left before I step
Took a turn away but I can't forget
His face staring back at me Everybody's got a story
Everybody matters Get up, get up, get up!
We can make a difference, hear me when I say
Get up, get up, get up!
We can make it better, so come on, don't wait It takes you, it takes me
To make somebody's world a brighter place to be
(Right now) Get up, get up, get up! Yeah, just get up
Get up, get up, get up! See a lonely girl in the hallway
Sitting by herself every day
Do you wonder what's going through her head? She could be her friend and jump right in
Do you pretend and just blend in?
It's up to you, so what you gonna do? 'Cause everybody's got a story
Everybody matters Get up, get up, get up!
We can make a difference, hear me when I say
Get up, get up, get up!
We can make it better, so come on, don't wait It takes you, it takes me
To make somebody's world a brighter place to be
(Right now) Can you imagine a place?
A beautiful day
Where nobody felt replaceable? Come on imagine a place
A beautiful day
Where nobody felt that way Get up, get up, get up! Whoa, whoa
Get up, get up, get up! Get up, get up, get up!
We can make a difference, hear me when I say
Get up, get up, get up!
We can make it better, so come on, don't wait It takes you, it takes me
To make somebody's world a brighter place to be
(Right now) Just get up, get up, whoa
Hear me when I say
Get up, get up, get up!
We can make it better, so come on, don't wait It takes you, it takes me
To make somebody's world a brighter place to be
(Right now) Get up, get up, get up! Just get up
Get up, get up, get up!
