

Evil Fantasies

Judas Priest

We turn and face each other
My fingers pull your hair
You wince and jerk my wrist off
I bite my lip and stare Your stance at once defiant
I'm rigid to your pose
You clench your teeth in anger
My lovin' swells and grows You give me evil fantasies
I wanna get inside your mind
Come on an' live my fantasies
I'll show you evil and you can't hide You're dragged into my vision
Trapped serving to my needs
Maybe imagination
Is where my dark side feeds You slide your nails down in me
I raise my structure high
You pout I snarl, you whimper
And wave compassion by You give me evil fantasies
I wanna get inside your mind
Come on an' live my fantasies
I'll show you evil and you can't hide
Ooh I'll give you evil Gonna take you
Wanna get through
Gonna make you
Do what I want You give me evil fantasies
I wanna get inside your mind
Come on an' live my fantasies
I'll show you evil you can't hide You're dragged into my vision
Trapped serving to my needs
Maybe your imagination
Is where my dark side feeds Come on evil yeah
You give me evil evil fantasies
Come on you evil and
Give me give me give me fantasies I wanna look at it those evil fantasies
If you need it I wanna give it
Give me give me give me fantasies
Come on and get it evil fantasies
