Midway

Barbatos

Send them over the waves, our sentinels
They report in the news, position of our foes
This battlefield's been chosen, tactically in advance
Time to alert our fighters, we're soon in rangeMidway
We'll meet at Midway
Naval warCalling all men to deck, got to be airborne
Head out into the sun, descending on our foes
This is the crucial moment, in the heat of the war
To fly and hit our targets, down in the wavesMidway, display their might
Ordering carriers, admirals at war
We'll meet at Midway to win the fight
Tactics are crucial, naval warFar from shore, a pacific war
Bombs are falling from the skies
It's a bomb run day, it's the naval way
A blood red sun is on the riseFar from shore, a pacific war
Bombs are falling from the skies
It's a bomb run day, it's the naval way
A blood red sun is on the riseMidway, display their might
Ordering carriers, admirals at war
We'll meet at Midway to win the fight
Tactics are crucial, naval warMidway, display their might
Ordering carriers, admirals at war
We'll meet at Midway to win the fight
Tactics are crucial, naval warMidway
