

# The Things We Don't

## Watertown

I dont ever have to wonder what it might be like  
Going 90 down the freeway in the middle of the night.  
Hands out the window just havin fun.  
Smiles on our faces, nothin but time as we fly by,  
And what a night I dont reminisce about the chances missed,  
Dont let them get me down.  
Its the chance we take that makes us great,  
Turns our lives around. There is a fear that get us here  
Lookin back I know,  
We dont regret the things we do,  
Just the things we dont. I dont ever have to wonder if I had a chance  
With that blue eyed girl in my homeroom class  
We took in this far and never looked back  
Two kids and a wife,  
I love my life.  
Cant wait to see, what tomorrow brings. I dont reminisce about the chances missed,  
Dont let them get me down.  
Its the chance we take that makes us great,  
Turns our lives around. There is a fear that get us here  
Lookin back I know,  
We dont regret the things we do,  
Just the things we dont. I dont reminisce about the chances missed,  
Dont let them get me down.  
Its the chance we take that makes us great,  
Turns our lives around. There is a fear that get us here  
Lookin back I know,  
We dont regret the things we do,  
No we dont regret the things we do,  
Just the things we dont. We dont  
Just the things we dont.
