

# Painkiller (feat. Meghan Trainor)

Jason Derulo

M Train, Jason Derulo, trueI thought my heart might break 'cause slowly this kills

Not everyone needs space (oh no)

You're what the doctor gave, I swallowed your pill

I never loved this way (oh no)You pick me up and get me higher

You fill my cup with desireBaby I'm back now feeling how I used to feel

You got me back now, stick around, this is for reals

You put it do-do-do-down, my painkiller

You put it do-do-do-down, my painkiller

Baby I'm back now feeling how I used to feel

You got me back now, stick around, this is for reals

You put it down

You put it downI had to turn the page to get here to you

Love how you numb my pain (oh yeah)

But all the nurses saved me, where is the juice?

That makes you go insane (oh yeah)You pick me up and get me higher

You fill my cup with desireBaby I'm back now feeling how I used to feel

You got me back now, stick around, this is for reals

You put it do-do-do-down, my painkiller

You put it do-do-do-down, my painkiller

Baby I'm back now feeling how I used to feel

You got me back now, stick around, this is for reals

You put it down

You put it down

You put it downCheck this out, I'm 'bout to kiss it

Make it better, kiss and make it better babe

Kiss and make it better, kiss and make it better babe

I'mma kiss it, make it better, kiss and make it better babe

Kiss and make it better, kiss and make it better babe
